

VERMEER ULTRA X3 DRILLING SYSTEM

Unique, non-torque spline connection system for quick tooling switches

Available in three sizes for drilling rigs up to a 40,000-pound (177.9-kN) drill range

Versatile compatibility

- Gauntlet bit
- Lance Pro bit
- Single roller-cone bits
- And more plate bits and rock tooling

Construction material

- Manufactured with durable, high-alloy material

Size options

- Ultra X3 375 for horizontal directional drills (HDDs) in the 40,000-pound (177.9-kN) drill range — Vermeer D40x55 S3 or Ditch Witch JT40 HDD
- Ultra X3 325 for HDDs in the 24,000-pound (106.8-kN) drill range — Vermeer D23x30 S3, Vermeer D24x40 S3 or Ditch Witch JT30 HDD
- Ultra X3 275 for HDDs in the 10,000-pound (44.5-kN) drill range — Vermeer D10x15 S3 or Ditch Witch JT10 HDD

Key features:

- Provides the ability to swap out tooling quickly without the use of specialty tooling or breakout devices
- Features standard API rear connection, which will also work with quick-connect systems
- Can ream directly from the transmitter housing
- Eliminates the need for starter rods and adapters in certain application and ground conditions
